

DIG IN WITH US!

Did you know?

The trees and shrubs you'll be planting are all native species. Native species not only do well in our St. Louis climate, they also serve as home and food for native wildlife.

WHO?

You! (...and your family, friends, and neighbors)

WHAT?

***Sprouting Science* "Dig In!" Days**

WHEN + WHERE?

Saturday, November 8:

9-11 a.m. – Wilkinson Early Childhood Center, 1921 Prather (Franz Park)

12-2 p.m. – Hogden Elementary, 1616 California Ave. (Eads Park)

Saturday, November 15:

9-11 a.m. – Adams Elementary, 1311 Tower Grove Ave. (Adams Park)

12-2 p.m. – Dunbar Elementary, 1415 N. Garrison Ave. (Jet Banks Park)

3-5 p.m. – Gateway Elementary, #4 Gateway Drive (Desoto Park)

Events will be held rain or shine.

In celebration of the City of St. Louis' 250th anniversary, join fellow students, teachers, and neighbors in planting 250 trees this fall at select St. Louis Public Schools and City parks. As part of the Sprouting Science program, a collaboration between St. Louis Public Schools, Missouri Botanical Garden, and Boeing Corporation, a series of "Dig In!" tree-planting events have been planned with the City of St. Louis and Forest ReLeaf of Missouri.

All ages welcome!
No gardening experience necessary.
Gloves and tools provided.
Free hot chocolate!
