Pure Air Natives Inc.

Alberici

The Shaw Professional Landscaping Series gratefully acknowledges the significant contributions to the community given by

John Alberici for his love and support of greener landscapes and buildings, and for sharing his enthusiasm and commitment through demonstration and example.

Serving nature and you™

Discover Nature Programs

Deepen your connections with nature and your family and friends. Offered through many MDC facilities and conservation areas, there's a Discover Nature program near you!

Discover Nature Women

Don't let inexperience keep you from enjoying Missouri's great outdoors. Women 14 years and older can gain the skills and confidence to pursue outdoor activities alone or with friends and family. Find a Discover Nature Women workshop near you.

Going Green

Examples of green infrastructure include:

- Rain gardens
- Porous pavements
- Green roofs
- Infiltration planters
- Trees and tree boxes
- Rainwater harvesting (rain barrels)

Sustainable Practices

MSD alone cannot keep the region's waterways clean. We need the support, resources and actions of concerned citizens, businesses and municipalities to improve local water quality. Since our waterways and sewers are shared public resources, there are many steps that you can take to help maintain both.

St Louis Chapter

American Society of Landscape Architects

St Louis
A S L A

The **American Society of Landscape Architects**

is the national professional association representing landscape architects. ASLA has more than 16,200 members and 48 chapters, representing all 50 states, US territories, and 42 countries around the world. ASLA promotes the landscape architecture profession and advances the practice through advocacy, education, communication, and fellowship.

The Missouri Prairie Foundation works with public and private partners to protect and restore our prairie and native grassland communities through land acquisition, management, education and research.

Metro St. Louis**

Sharing Knowledge Since 1995

Gateway Professional Horticulturist Association

The **Horticulture Co-op of Metro St. Louis** is a non-profit professional green industry association organized to promote quality horticultural practices and materials by providing contemporary educational experiences for green industry professionals and consumers in the Gateway region.

The Hort Co-op consists of four professional green industry **Member Organizations** and three educational **Advisory Organizations** listed below.

Planning Implementation Consulting

Native landscapes provide beauty, habitat, and a place to rekindle our connection with nature. Knowledgeable planning, installation and maintenance are key to a successful native landscape. We can bring your native landscape vision to life on any scale. Native Landscape Solutions, Inc. offers sustainable landscape services for corporate campus facilities, municipalities, schools, and many other sites. Stormwater BMP's, rain gardens, woodlands, prairies, and all native landscapes are our specialty.

DJM Ecological Services, Inc. employs professionals in native plant ecology, propagation, arboriculture, landscape ecology, wetland and riparian mitigation, soil bio-engineering, plant physiology, weed ecology, erosion control, and wildlife biology. With a deep, experienced staff, no question is too mundane and no project too complex.

Additionally, DJM has an assortment of specialized equipment including: Truax no-till drills, 4WD tractors, custom seed harvesting implements, targeted herbicide application devices and prescribed burning tools.

Your Green Thumb — Empowered

As any seasoned gardener or landscaper knows, the most important thing you can do to enhance a lawn or garden is to cultivate better soil. And the single best way to do that is to condition your soil with compost, one of the finest organic supplements known to humankind. For nearly two decades, St. Louis Composting has been the region's leading producer of nature's ultimate renewable resource. We supply hobbyists and professionals alike with top quality compost, topsoil and soil blends and a variety of mulches while simultaneously reducing landfill waste across the metro area.

Welcome to Missouri Wildflowers Nursery!

We sell native Missouri perennials, both seeds & plants. Our plants are nursery propagated. Missouri is the genetic origin, so they are best adapted to states east of the Rockies. View our plants online or come [visit us](#) just south of Jefferson City, MO

Applied Ecological Services, Inc. **Design Based in Science**

Applied Ecological Services is one of the leading ecological consulting firms in the world; we are dedicated to bringing the science of ecology to land-use decisions. AES applies science to provide practical land-use solutions that strike the most favorable balance between cultural needs, cost efficiencies and ecological sustainability. Our knowledge of ecological systems provides a solid foundation for creating balanced ecological designs and solutions that are sustainable, cost-effective and enduring.

Landscape Design & Contracting

COMMERCIAL LANDSCAPING

Landesign has successfully completed a broad range of commercial landscaping projects including parks, hospitals, schools, corporate headquarters, green roofs, municipal developments, regional attractions, and shopping centers. In addition to campus construction, Landesign takes pride in addressing critical landscape issues such as streambank stabilization and restoration, roadside erosion control and repair, wetland mitigation, and natural area restoration and reconstruction.
