

MISSOURI BOTANICAL GARDEN

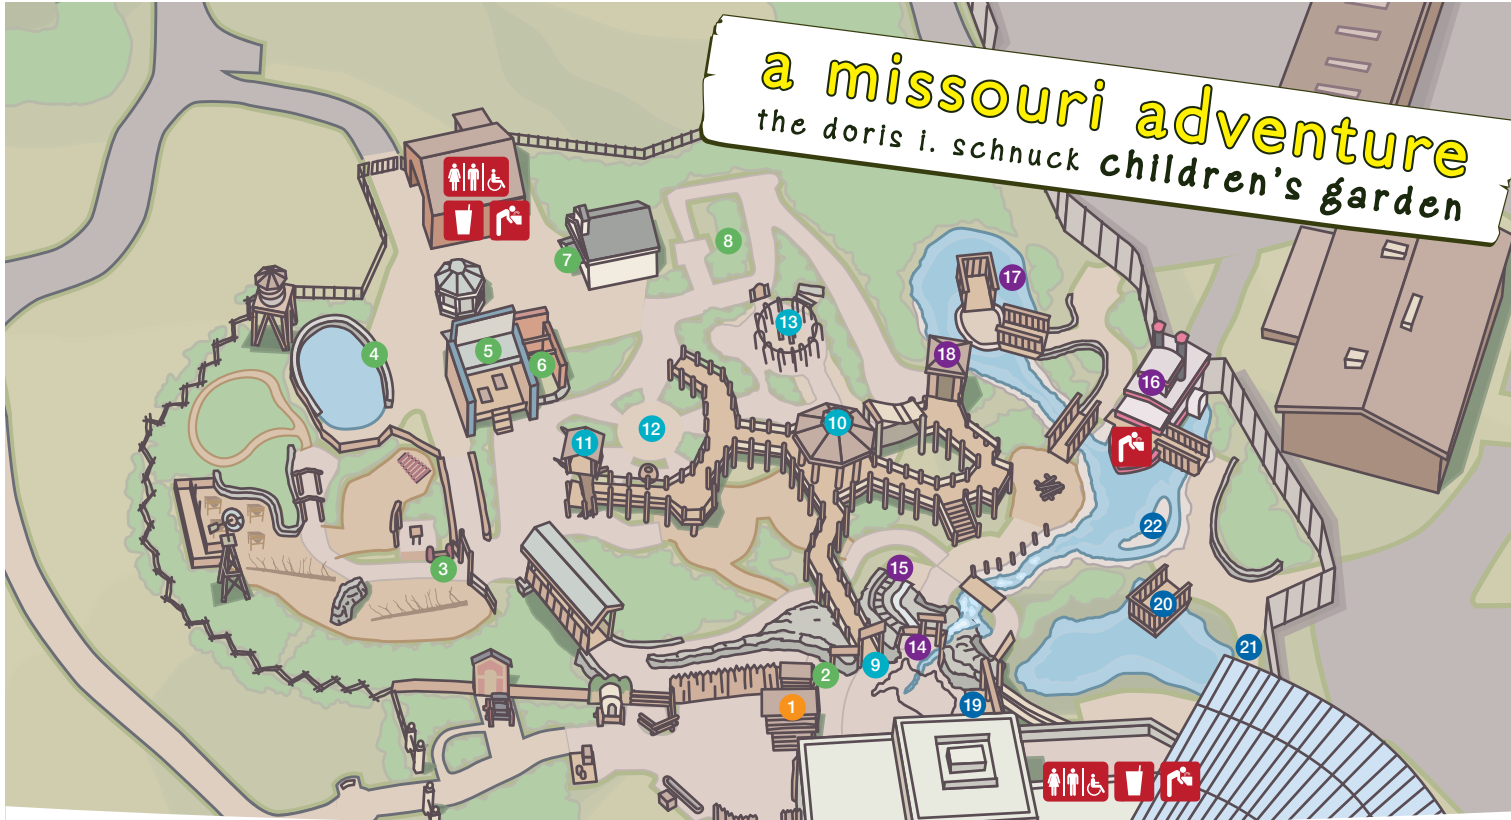

Children's Garden Visual Schedule

Instructions

The goal of the visual schedule is to provide pre-visit knowledge of all that the children's garden offers and for your family to personalize your visit based on your child's needs. It will also allow for flexibility and the opportunity to alter your schedule in response to the needs of your child the day of your visit.

- 1 Prepare all cards with removable adhesive, such as Velcro.
- 2 From the **picture section**, choose which areas you would like to visit.
- 3 Use the **blank cards** to fill in your own personal needs, such as bathroom break, drink/snack break, all done, etc.
- 4 In the **schedule section**, post all the cards in the sequence of your choice.
- 5 If desired, you may move the pictures to the **All Done** page after you have visited that area.

Participant's Map

First:

Place Current Selection Here

Then:

Place Next Selection Here
