CORPORATE PHILANTHROPY AND THE MISSOURI BOTANICAL GARDEN
Opportunities for Partnership in 2013
The Missouri Botanical Garden needs the community’s financial support to remain a vibrant cultural attraction and world-leading plant science operation. Corporate support demonstrates that organizations that drive the local economy value the Garden. Your support tells the community you know the importance of a rich cultural life, a healthy planet, and opportunities to learn and grow.

The Win-Win of Corporate Sponsorship

Corporate contributions support a beloved local cultural institution with a global impact. In turn, the Garden gives its sponsors a level of recognition and additional benefits that few other promotional efforts can match.

With your support, the Garden accomplishes great things.

Almost one million people a year experience the Missouri Botanical Garden and its family of attractions, which include Shaw Nature Reserve in Gray Summit and the Sophia M. Sachs Butterfly House in Chesterfield.

The strength of the combined sites brings to a new level the number of opportunities for community members to engage, explore, discover, and unwind.

In addition to strengthening cultural life and educational opportunities in St. Louis, the Garden is also a source of local pride. The Garden runs the most productive and respected plant research program in the world—work that supports critical progress on issues such as global climate change, hunger, and managing disease.

Your contributions make possible the Garden’s ongoing work in providing a place of respite, education, and world-changing scientific work.
In appreciation for your support, the Garden offers great things for you.

Through your corporate sponsorship, the Garden helps you reach university students, art enthusiasts, educators, retirees, parents, gardeners, executives, and environmentalists. We connect you to the region’s most educated and socially engaged. (See demographic data on Garden members on page 16.)

In addition to publicly recognizing your generosity and giving you the opportunity to share products or information with consumers, the Garden also offers you a chance to have fun. Benefits vary by the level at which you give, but most sponsorship packages include:

**Recognition**

The Garden publicly acknowledges its sponsors at every opportunity. Sponsors are mentioned on the Garden’s website, which attracts 300,000 visitors every month (a number that does not count returning visits from repeat users); in a quarterly publication to more than 41,000 membership households; and on banners, signs, and news releases specific to the sponsored event.

Sponsors may also be acknowledged on interstate billboards and through radio, mobile marketing, television, social media, and newspaper advertising.

**Special Access to the Garden**

Event sponsors at the Garden enjoy terrific opportunities. Sponsors receive free admission to festivals and floral shows, free admission to the Garden and its family of attractions, VIP access, use of Garden facilities for a corporate event (free or reduced rate, depending on sponsorship), and much more.

**Special Access to Garden Visitors**

We welcome presenting sponsors interested in introducing new products or sharing information about their company. Because every company’s goals are distinct, the Garden and presenting sponsor approach this possibility on a case-by-case basis.

**Networking Opportunities**

Presenting sponsors may also receive one-year complimentary memberships to the Garden’s Corporate Partners Program and a seat on the Corporate Council. The council is an opportunity to meet other executives and shape the future of the iconic Missouri Botanical Garden.
Foodology: Dig In!

Food connects us all. Everything we eat, whether directly or indirectly, comes from plants. Of the 400,000 known plant species, more than 20,000 are edible. Yet a mere 14 kinds of crop plants make up most of what we eat today.

Throughout 2013, the Garden will share these and other intriguing stories from the extraordinary world of plants during Foodology: Dig In!, a year-long series of exhibits, events, and community engagement initiatives. By sparking community conversations around the origins, sustainability, and health of what we eat, the Garden will be inviting everyone to think about the plants on their plate in all new ways.
Sponsorship Opportunities for the Year of Food will include:

We hope you have found the perfect opportunity in 2013 to strengthen your company’s position in the community while you strengthen the community itself. We also work with companies that seek other ways to support the Garden, including:

- Providing special project support for education, plant science and conservation, or horticulture programs.
- Becoming part of the Garden’s Corporate Partners Program and Corporate Council (details at www.mobot.org/corporate).
- Matching employee contributions to the Garden.

Questions? Call (314) 577-0217, or send an e-mail to corporate@mobot.org.

Your support helps save at-risk species and protects habitats close to home and around the world. On behalf of the Missouri Botanical Garden and our one shared planet, thank you.
