Natural Ink Making (MBG) NEW
Natural inks are a beautiful and sustainable way to bring color to your ink drawings. Common kitchen items and garden plants and weeds can be transformed into brilliant colorful inks. In this workshop, you’ll learn to create inks from natural materials like turmeric, black walnut, anatto seeds, and more, and then use the inks to practice ink drawing and washing techniques on salvaged paper. Saturday, August 20, 10 a.m.–noon $35 members; $42 nonmembers

FINE ARTS
All classes have supply lists unless noted. Price per person, per class.

The Dance of Watercolor (MBG) NEW Intermediate. Develop the freedom and confidence to capture the spirit of watercolor with the Garden as your inspiration. Learn to trust your creative instincts and use the natural free-flowing characteristic of watercolor as a catalyst for creativity to lead you on a creative journey. There will be exercises in composition, expressive use of color, pigment application, and calligraphic brush work. The goal is to help you improve your ability to “see” as an artist and unleash your creativity. 5 Fridays: April 8, 15, 22, 29; May 6 10 a.m.–noon $165 members; $198 nonmembers

Bold and Beautiful (MBG) ONLINE Beginning to intermediate. Using the dynamic, luminous character of watercolor, students will learn to utilize bold color, shape, and line to make their own unique paintings. The process of watercolor will be taught in a simple and straightforward manner while painting a variety of subjects inspired by nature and the Garden. This class encourages creativity while enhancing painting and compositional skills. 3 Mondays: March 7, 14, 28 6–8 p.m. $110 members; $132 nonmembers

Painting from Nature Workshop (MBG)
Beginner/Intermediate. Leonardo da Vinci said, “Study the science of art. Study the art of science.” Beginning with pencil, students will learn how to define form and structure, translate proportion and depth, and explore line and value. Students will then learn how to apply watercolor to their compositions, gaining in-depth knowledge of color mixing and paint application. Clear, step-by-step instructions will be provided to enable you to fully understand the process, creating multiple renderings from nature along the way. A final project and critique will round out the workshop. All materials provided. 3 Saturdays: April 30; May 7, 14 9:30 a.m.–12:30 p.m. $112 members; $134 nonmembers

The Garden in Watercolor (MBG)

Behind the Scenes:
Teahouse Island Photography (MBG)
All levels. Get rare access to this special non-public space where we will photograph the neutral tone and simple beauty of Nakajima, or Teahouse Island, and its limitless patterns and shapes. Slow down, relax the mind, and see what is in front of you. The creative possibilities are endless. As the light changes, so do the images. Space and gear will be limited for this special place!
Thursday, April 14, 9 a.m.–noon
$52 members; $62 nonmembers

Photographing Spring Blooms (MBG)
All levels. Spring is the perfect time to capture the colors and forms of flowers, especially in early morning light. During this hands-on field class, Scott will concentrate on peak blooms around the Garden. He will increase your understanding of light, composition, and subject selection during this photo shoot. Be prepared to walk around the Garden and bring your camera and extra batteries.
Thursday, May 5, 9:30 a.m.–noon
$35 members; $42 nonmembers

Close-Up Photography (MBG)
Intermediate. Learn some of the difficulties and joys of close-up photography. We will focus on sharpness, lighting, working the subject, and composition to improve them for stronger images. Small changes make a huge difference. We will discuss subject selection, equipment, and how critical depth of field selection becomes. Participants should have a basic understanding of the camera and its key features. A tripod and cable release/remote are recommended. A macro lens is not required.
2 Tuesdays: June 7, 14, 5:30–8 p.m.
$105 members; $127 nonmembers

Photographing Garden Architecture (MBG) NEW
All levels. Let’s concentrate on the amazing and historic structures at the Garden. The after-hours class will be extremely helpful in minimizing the impact of people within the composition. Explore the opportunities of photographing the entire structure, architectural details, and the plants around the architecture. Scott Avetta will give you some basic tips at each location to improve your design.
Monday, July 11, 5:30–8 p.m.
$35 members; $42 nonmembers

Photographing Water Lilies (MBG)
All levels. Get special access to evening light during restricted hours and photograph water lilies. During this field session we will discuss how to get better images using anything from wide angle to a close-up perspective. You will learn tips on subject selection and how light plays a significant role in your photography. Tripods will be allowed.
Thursday, August 4 or Thursday, August 11 5–7:30 p.m.
$42 members; $50 nonmembers

Photography Boot Camp I (MBG)
All levels. Tired of going through confusing manuals and not understanding where to start? In this multi-session, hands-on course we will simplify your life by explaining the key functions on your camera, why they are important, and how to use them to your advantage. We will also discuss camera settings, ISO settings, white balance, and a few other critical features. You should bring a camera and manual to the classes as you will have some class time to practice what you have learned.
3 Wednesdays: March 30; April 6, 13 9:30 a.m.–noon
$140 members; $168 nonmembers

Photography Boot Camp II (MBG)
All levels. In this multi-session class, learn how composition, light, and lens choice all work together and how to apply them in the field. Scott Avetta will focus on lenses that most photographers already have. He will emphasize making the most of the outside photo shoots and increase your understanding of what lens to use based on the light and conditions. Space is limited so Scott can spend individual time with each photographer during photo shoots.
3 Wednesdays: April 27; May 4, 11 9:30 a.m.–noon
$105 members; $126 nonmembers

Understanding Composition—Photography (MBG)
All levels. So often we have a good image that gets lost within the design. The difference between good and great can be inches or seconds away. We will spend time on working the scene and exploring its potential. Changing your angle, getting closer, learning the light, an aperture adjustment, the flow of the image. We will look at the framing of a photographic canvas and you are the painter.
2 Tuesdays: June 7, 14, 5:30–8 p.m.
$56 members; $67 nonmembers

Creativity in Photography (MBG)
All levels. Our photography is often blocked by looking for things vs. finding them. During these classes we will spend the vast majority of our time in the field. As we walk through the Garden, we will stop at locations that have the greatest potential for a strong image. We will discuss light, design, and aperture and likely take images of areas you may normally pass by. We will also discuss some of the obstacles we create for ourselves. Consider taking Photography Boot Camp I for a better understanding of your camera.
2 Wednesdays: July 6, 13, 9:30 a.m.–noon
$105 members; $127 nonmembers

Working the Light (MBG)
All levels. Learn how to photograph with light in mind first, then the subject second. During these outdoor sessions, we concentrate on understanding the importance of light and learn how subtle changes can make dramatic differences. And if needed, find ways to improve the conditions with reflectors, diffusers, or artificial light.
3 Mondays: June 6, 13, 20, 5:30–8 p.m.

Shaw Nature Reserve Macro and Close-up Nature Photography Workshop (SNR)
Beginner/Intermediate. Through a macro lens, the veins of leaves become a mosaic pattern, textures of tree bark become a mountain range, and shallow depth of field simulates a watercolor background. A long lens can also produce compelling close-ups while shooting further from the subject. Join Dan Dreyfus for this workshop that will include a presentation, basic equipment considerations (macro and long lens), and shooting assignments in the field. There will also be a visual scavenger hunt for a fun challenge.

Saturday, June 4, 8:30 a.m.–3:30 p.m.
$110 members; $132 nonmembers

Light + Discovery Workshop (SNR) NEW
All levels. Light is our language. Direction, color, and quality of light impact images in powerful ways. Dan Dreyfus’s Light + Discovery Photo Workshops enhance participants’ understanding of light while exploring ways to deepen our perception of and connection to the subject. The workshop will be divided into two parts. Following the presentation on light, workshop participants will be challenged with a series of photo exercises in the field. The second part of the workshop will include a presentation on methods to look and to see the subject on a level deeper than surface impressions. Again participants will continue with photography in the field applying concepts presented. The workshop includes 1 day of photography presentations, instruction, and shooting in the field. Participants should have a working knowledge of their camera and concepts such as aperture, ISO, and shutter speed.

Saturday, June 18, 8:30 a.m.–3:30 p.m.
$110 members; $132 nonmembers

Milky Way Photography (SNR) NEW
Intermediate. Participants are expected to know their camera’s menus to make adjustments in dark locations and basic photo editing skills. Learn to capture the night sky featuring the Milky Way in a beautiful Shaw Nature Reserve setting. The class covers how to plan, shoot, and process nightscape photos using Adobe Lightroom Classic CC. Weather permitting, participants will shoot Saturday night.

$80 members; $96 nonmembers

GREEN LIVING

Understanding the 3Rs
The 3Rs is a familiar trio of conservation—reduce, reuse, and recycle—but there are often questions about each of these actions. Why is reducing important if items can be recycled? How can items be reused? What happens after plastic goes into that blue bin? The 3Rs series is designed to help answer these questions and many more. Each class will give you tools you can use immediately after leaving class to help “green” your life. Attend one or all three classes to learn in depth about how you can reduce, reuse, and recycle in your home.

Reducing 101 (MBG)
Reducing waste is one of the best ways to help our environment, but it can be difficult to reduce waste in our own lives. Why is reducing so important when recycling is available? How can wasted food and single-use items be reduced? This class will help you identify strategies for reducing waste, with a special focus on food and plastic. You will walk out with steps for how to reduce your impact on the environment.
Wednesday, March 16, 6:30–8 p.m.
$10 members; $12 nonmembers

Reusing 101 (MBG)
Discover new ways to reuse old items in the second program of the 3Rs series with the creative staff at Perennial! Eugenia Alexander, Perennial’s Director of Creative Reuse, will demonstrate techniques for transforming common everyday items into material that can be used in your next craft project. Participants will learn about many different projects that can be made with reused materials and will even get to make a few handmade projects of their own! We’ll talk about ways to reuse year-round, and we’ll make pollinator hotels and book page bouquets—all garden-themed crafts! A supply kit is included so that you can create during class.
Saturday, July 23, 10–11:30 a.m.
$21 members; $25 nonmembers

Recycling 101 (MBG)
It’s often hard to figure out what can be recycled and even harder to explain it to skeptical friends and family. Are bottle caps okay? What about plastic bags? Is it even recycled? In this class, you will learn what can be recycled, where recyclables go, and what has to go to the landfill. We’ll discuss the importance of recycling, the value of products, and the process for items to get sorted and recycled.
Wednesday, July 27, 6:30–8 p.m.
$10 members; $12 nonmembers

DIY Rain Barrel Demonstration (MBG) ONLINE
Learn to collect rain water in a barrel! In this class the EarthWays Center will share the impact of stormwater on St. Louis and how a rain barrel can prevent pollution, among other benefits. Then, Perennial will demonstrate how to alter 55-gallon drums into rain collectors. Learn to incorporate rain barrels in your yard, including creating a base to elevate them and connecting to gutters. You will not create a rain barrel in this class, but be given instruction to create one.
Saturday, March 19, 10–noon
$28 members; $34 nonmembers

Green Burial—A Better Way to Go (MBG) ONLINE
Curious about green burial but don’t know what or who to ask? Join Gracie Griffin of St. Louis’s historic Bellefontaine Cemetery as she provides a closer look at green burial practices, dispels myths, and explores some fascinating options available throughout the world. Learn the range of “green” funeral and cemetery options available today, like “becoming a tree,” what one can expect when choosing a green service, and the environmental benefits of green burial as compared to cremation and traditional burial.
Wednesday, April 27, 6:30–8 p.m.
$10 members; $12 nonmembers

Composting in Small Spaces—Bokashi and Vermicomposting (MBG)
Dive into the science and art of indoor composting, a way to reduce the amount of kitchen waste you send to the landfill while creating a nutrient-rich soil amendment for your garden. While there are many composting methods, this class will focus on 2 small-scale methods for the kitchen: bokashi and vermicomposting. Maggie will demonstrate how to build each of these systems, and participants will receive their own kitchen scrap collector to get started.
Tuesday, May 10, 6:30–8 p.m.
$35 members; $42 nonmembers

Bug-Friendly Lifestyle (BH) NEW
Sharing space with our bug friends is not always our first instinct, but there are huge benefits to sheltering some of our smallest neighbors. From the practical reward of a dragonfly’s natural pest control, to the enchanting beauty of a firefly’s evening light show, there’s a lot to gain from making our shared spaces more bug friendly. Learn some small actions that have big benefits for becoming better neighbors to our native bugs, as well as greener strategies for keeping out the truly unwelcome guests.
Sunday, July 17, 2–3:30 p.m.
$21 members; $26 nonmembers

Registration starts February 1 at 9 a.m.! Sign up online at mobot.org/classes.

Owls of Missouri (MBG) HYBRID
Join us as we learn about the characteristics, relationships, adaptations, and the habitat of the nocturnal, crepuscular, and diurnal owl species of the Show-Me State. We will focus on the 4 native owl species that live in Missouri and learn of 4 others who frequent our state during migration and on other occasions. The first class will be a 1-hour Zoom presentation. The next week, we will take a 1-hour hike to listen and look for any owls living in the Garden. Come prepared for a 1-mile walk.

Who’s Passing Through? (SNR) NEW
Warblers, tanagers, and thrushes are some of the groups of migratory birds that either spend their summer in Missouri or are just passing through on their way to Canada during the spring. The showy colors and ethereal sounds of these birds make spring a magical time to savor indeed? Our program will focus on some of the migratory birds that we are most likely to see at Shaw Nature Reserve by engaging in some activities that will help with visual and auditory observation and identification. We will spend some of our time coloring birds to help us remember the colors and patterns, or field marks, of the birds that we will be investigating. Resources such as identification books and the Merlin app will be discussed as well. Also, some easy, everyday conservation practices will be shared to encourage securing the future for these precious, feathered gems. After our investigation of these birds through books, apps, paper, and colored pencils, we will take a walk to see who we can discover.

THE LITTLE YEARS

The “Little Years” series is designed for parent-and-child experiences at three St. Louis area sites: Missouri Botanical Garden, Butterfly House, and Shaw Nature Reserve.

This series places the focus on your child, you, and the wonders of nature while preparing your child for preschool and kindergarten. Your child will learn skills such as taking turns, listening to the teacher and their friends, sharing, and making choices. Each class in all series includes hands-on activities, songs, stories, snacks, and a short walk. Price per child. One adult per child please.

PLEASE NOTE: Little Sprouts, Little Nature Explorers, Little Bugs and Garden Buds are specifically designed as an adult/child program. Having additional children present can distract from the one-on-one experience for you and for others. Please no younger siblings.

**AGES 6 AND UNDER**

**Little Sprouts: Summer (MBG)**
