CHIHULY IN THE GARDEN
MAY 2–OCTOBER 15, 2023
The work of world-renowned artist Dale Chihuly is coming to the Garden in a stunning exhibition uniting art and nature.

ACCESS TOURS

The Missouri Botanical Garden is committed to providing an inclusive environment by ensuring that the Garden and our classes are accessible to everyone. With this in mind, we are launching an easier way for our participants to request accessibility accommodations for all of our Spring–Summer 2023 classes. You will now be able to request American Sign Language interpretation, captions, and audio description for any class you attend while registering online with just a few clicks. As always, you will still be able to reach out to us by phone or email and request accommodations.

Starting in March 2023 the Garden will be offering quarterly Audio Descriptive tours and American Sign Language interpreted tours. We are also excited to be continuing our monthly A Walk Down Memory Lane tours for those with memory loss and their caregiver. To learn more about these tours, go to page 22.

Conquering Complexities in Watercolor (MBG) NEW
Maria Sibylla Merian said, “Art and nature shall always be wrestling until they eventually conquer one another so that the victory is the same stroke and line: that which is conquered, conquers at the same time.” By looking closely at the work of Maria Sibylla Merian, individuals will learn to conquer complexities in watercolor! This class is designed for students with a basic understanding of watercolor painting who want to develop their skillset further. You will be taught new techniques as you study plants, focusing on composition, color awareness, techniques for capturing light, and working through mishaps that can occur when painting. Students will create a final life-like botanical painting.

PLANTS, CUISINE, AND CULTURE

Plants are intimately linked to our cultural identities and food traditions. Plants tell us where we are and who we are in how we use them to feed ourselves. When we migrate, we carry our culture and cuisine with us. In this series renowned chefs, culinary historians, and authors from cultures around the world discuss how plants shaped their foodways.

GARDENING for BIODIVERSITY

Native Plant School (SNR)
Native Plant School is a year-round series of classes taught by the horticulture staff at Shaw Nature Reserve and covers various aspects of native landscaping. Native Plant School classes are supported by the Missouri Department of Conservation and the St. Louis Wild Ones Chapter.

Native Plants for Your Front Yard Garden (SNR)
We will discuss some native plants that are amazing for use in any neighborhood front yard garden and how to use them successfully. Plant selections we discuss will be based on ornamental value, compact size, lack of weediness, longevity, and wildlife value. If you are thinking about starting or expanding a native plant garden, this class may be for you.

Springtime Herbs in the Ozarks (SNR)
The first green herbs of spring have historically played an important role in the lives of rural Ozarkers. In the days before modern grocery stores, pharmacies, or central heating, a long winter of staying indoors with few fresh foods to eat could make people feel slow and lethargic.

Native Plant School staff and horticulturist Joan Klingensmith will lead you through the basics of container gardening with native grasses, sedges, annuals, and perennials. We will go over the advantages of container plantings and tips on container choices, placement, and soil preparation. We will discuss native plant options, the year-round maintenance of containers, and some design basics. Come prepared for a short walk around the Whitmire Wildflower Garden to check out its containers and the chance to get your hands dirty in helping to plant containers for the Garden.

Container Gardening with Native Plants (SNR)
Are you limited in space to do your gardening? Would you like to beautify a porch, balcony, or other corner of your yard? Or, do you simply love the idea of planting a combination of native plants in a creative way? If so, container planting may work for you. In this class, Shaw Nature Reserve horticulturist Joan Klingensmith will lead you through the basics of container gardening with native grasses, sedges, annuals, and perennials. We will go over the advantages of container plantings and tips on container choices, placement, and soil preparation. We will discuss native plant options, the year-round maintenance of containers, and some design basics. Ecological Gardening 101 (SNR)
We can play a role in the efforts to conserve our declining wildlife and resources through the art of ecological gardening. By shifting your perspective and prioritizing the need to coexist with nature, you'll find satisfaction in creating a beautiful space that supports local wildlife, improves air quality, and absorbs and filters rainwater. The goal is to maintain an aesthetically pleasing yard that strikes interests and promotes sustainable living. This class provides an introduction on how to get started in the process of creating your eco-friendly garden. We will discuss how to begin thinking like an ecological gardener and the techniques and design considerations that will help you succeed.

BEHIND the SCENES

Beyond the Botanical: Sculptures, Fountains, Pools, and Ponds of the Garden (MBG) NEW
Evocative, thought-provoking, and thematic, we invite you to take a deeper look into the varied sculptures and fountains of the Garden. Led by Docent Lee Ann Grush, this dynamic, 1½-mile walk through the Garden and many of its 42 installations will delight both the historian and art lover. From historic placement of elegant, classical pieces of marble art by the Garden’s founder to the vibrant, more modern pieces of today, Lee Ann will guide you through the intricate (and often surprising) way the sculptors have woven a new thread of beauty through the Garden. Class material includes a booklet that provides more detail about each piece covered in the class and the opportunity to explore these treasures in more depth on return visits to the Garden. Dress for the weather and a 2-hour walk.

Behind the Scenes: Landfill Field Trip (Offsite)
Take a trip to see where things actually end up when you throw your trash “away.” On this popular field trip we will tour a local landfill and learn how landfills are designed to reduce their impact on the environment. Learn about the engineering, regulations and monitoring, and the daily routine of modern landfills. We will discuss the impacts of waste and the future outlook for waste disposal in the St. Louis area. Please arrive on-time and ready for adventure for this field trip excursion. This program is supported by funding from the St. Louis–Jefferson Solid Waste Management District.

Thursday, May 11; 9–11:15 a.m.

Adult Classes | NATURE STUDY

Owls of Missouri (MBG)
Join us as we learn about the characteristics, relationships, adaptations, and the habitat of the nocturnal, crepuscular, and diurnal owl species of the Show-Me State. We will focus on the four native owl species that live in Missouri and learn of four others who frequent our state during migration and on other occasions. In the second class, Brenda Hente will take you on a 1-hour hike to listen and look for any owls living in the Garden. 2 Wednesdays: April 5 and 12; 7–8 p.m. $28 members; $34 nonmembers
Taylor Visitor Center East and West Meeting Rooms Brenda Hente

Basics of Birding (MBG)
If you enjoy the outdoors and want to learn more about finding, observing, and identifying birds, this course is for you. Though primarily aimed at beginners, it can also be a refresher course for students who have had some experience. The four evening classes will be devoted mainly to learning the local birds, including songs and calls, as well as visual marks. We will cover field guides, binoculars, organizations, and where to go birding around St. Louis. The field trips will visit two good areas with a great diversity of spring birds. You will be responsible for your own transportation and lunch and should expect to hike up to 2 miles. 4 Thursdays: April 6, 13, 20, and 27; 6–8 p.m. Taylor Visitor Center West Meeting Room
2 Saturday Field Trips offline: April 22 and 29; Location will be emailed the Monday before class

Morning Bird Walk (SNR)
For those who have a knowledge of common local birds, know how to use binoculars, and how to identify birds by call or sight. This 1-mile morning walk during the height of spring migration is designed to help you see and hear many bird species at Shaw Nature Reserve. Come to one or all of the walks; each will be different. Wednesday, April 12 or Wednesday, April 19, or Wednesday, April 26; 8:30–11 a.m. $10 members; $12 nonmembers
Trail House Volunteer Don Hays

Spring and Summer Wildflower Walks (SNR)
Join Dr. James Trager for 1-mile walks to learn identification, relationships, and habitats of wildflowers and native grasses of the spring and summer seasons. Shaw Nature Reserve’s excellent trail system, winding through prairie, wetland, glade, upland and bottomland forest, is an ideal place to enjoy spring and summer wildflowers and other natural wonders. Thursday, April 13 or Saturday, April 22 or Thursday, May 11 or Friday, May 27 9:30 a.m.–noon
Thursday, June 1 or Saturday, June 10 or Saturday, June 17, or Saturday, July 6 or Thursday, August 10 or Thursday, August 19 8:30–11 a.m. $18 members; $22 nonmembers Location will be emailed the Monday before class

Path to Inspirational Journaling (MBG)
How do you preserve the moment when you find yourself in a place that has much to offer your senses? We can bring that experience more alive through sketching and writing. Focusing on a particular area of the Garden, we will develop drawing and writing practices through discussion and a variety of techniques, each designed to improve the ability to record nature experiences. Tuesdays: April 18 or May 9; 9:30–11 a.m. $26 members; $32 nonmembers
Taylor Visitor Center Check-in Jeanne Carbone and Judy Cobillas

Basics of Birding at Shaw Nature Reserve (SNR)
Would you like to know more about our feathered friends, but not sure where to start? If yes, then join us for an introduction to the basics of birding! We will cover a variety of methods to help with bird identification, including the use of templates and notes, apps, and field guides. Additionally, a variety of bird-related topics will be covered, such as the importance of the Great Missouri Birding Trail, migration patterns, our simple daily life choices that can make a huge, positive impact on bird conservation, and more. After covering some of these basics, we will put our newly learned skills to practice by taking about a 1-mile walk and seeing who we can discover. Thursday, April 20; 10 a.m.–noon $18 members; $22 nonmembers

Calling All Beginner Birders: Come Explore the World of Warblers! (SNR)
Come explore the beauty of warblers and the magic of their migration with us this spring! Where to look and how to identify them will be investigated through a highly interactive, hands-on (and fun!) program. Exploration of birding resources and conservation practices to help warblers will be covered as well. After learning some basic skills, we will take a walk to see which warblers have arrived. Thursday, April 27; 10 a.m.–noon $18 members; $22 nonmembers
Trail House Angie Jungbluth

Glade Flowers Walk (SNR)
For adults. Hike with Calvin Maginel in a rare opportunity to marvel at the early summer palette of glade wildflowers both on and off-trail. This hike will identify many common glade species and discuss how we take care of this area so it continually has the unique plants and animals that call it home. The Neighbors Are Doing What? (SNR) NEW
Something is always unfolding in nature just outside your backdoor and at the local park. Stories are “being told” all of the time. If you know what to look for, you will be able to crack the secret code of animal language and behavior and tap into these rich stories unfolding around you. Join us to learn about clues from birds, squirrels, deer, etc. that paint the bigger picture of what is going on. Multiple examples of what to look and listen for will be shared. Tips for warming up and fine tuning your senses will be practiced to help you become better at tracking nature. Additionally, investigating scat and tracks tells of a story that has already transpired and can be observed, as well. After covering some of the “how to” skills of this endeavor, we will take a short walk to put into practice what we have learned, and discover what is unfolding around us. Resources will be suggested for further exploration of your neighbors’ stories to continue this unique study and understanding of nature on your own. Light + Discovery Workshop (SNR)
All levels. Light is our language. Direction, color, and quality of light impact images in powerful ways. Dan Dreyfus’s Light + Discovery Workshops enhance participants’ understanding of light while exploring ways to deepen our perception of and connection to the subject. The workshop will be divided into two parts. Following the presentation on light, workshop participants will be challenged with a series of photo exercises in the field. The second part of the workshop will include a presentation on methods to look and to see the subject on a level deeper than surface impressions. Again participants will continue with photography in the field applying concepts presented. The workshop includes 1 day of photography presentations, instruction, and shooting in the field. Participants should have a working knowledge of their camera and concepts such as aperture, ISO, and shutter speed.

**YOUTH and FAMILY | AGES 6 and UNDER**

The “Little Years” series is designed for parent-and-child experiences at three St. Louis area sites: Missouri Botanical Garden, Butterfly House, and Shaw Nature Reserve.

This series places the focus on your child, you, and the wonders of nature while preparing your child for preschool and kindergarten. Your child will learn skills such as taking turns, listening to the teacher and their friends, sharing, and making choices. Each class in all series includes hands-on activities, songs, stories, snacks, and a short walk. **Price per child. One adult per child please.**

**PLEASE NOTE:** Little Years classes are specifically designed as an adult/child program. Having additional children present can distract from the one-on-one experience for you and for others. Please no infants or younger siblings.

**THE LITTLE YEARS (ages 6 and under)**

**Little Sprouts—Spring (MBG)**
For ages 2–3. Learn about plants and nature with your toddler during this 6-week series. As flowers begin to brighten the Garden, participants will learn about a specific plant part (seeds, flowers, leaves, or roots) during each class. One adult per child.

FAMILY PROGRAMMING

Think About Tables Workshop (SNR)  
Ages 5 and older. Create a unique little table from honeysuckle with your family (ages 17 and older can make one by themselves). In North America, bush honeysuckle (Lonicera maackii) is an invasive species. Yet honeysuckle wood is sturdy, strong, grows in interesting shapes, and is ideal for transforming a problem into a creative opportunity. We’ll start with a demonstration and then make a table to take home. All materials provided (honesuckle, tools, and safety protective gear).  
Saturday, March 25; 9 a.m.–3 p.m.  
$40 members; $48 nonmembers  
Glassberg Family Pavilions  
Dale Dufer

Flowers and Friends:  
Bug-Friendly Container Garden (BH)  
For all ages. Create a planter with your family that’s good for your local bugs, too! Using spring annuals and a mini insect hotel, dress up your porch or patio with a spot that gives a splash of spring color before yielding to a cozy shelter for your local ladybugs and bees.  
Sunday, May 21; 2–3:30 p.m.  
$45 per member family; $54 per nonmember family (3 person per family maximum)  
Butterfly House

Fantastic Bugs and Where to Find Them (BH)  
For all ages. Take a magical walk around the Butterfly House Native Butterfly Garden and into Faust Park with our bug experts to discover the amazing invertebrates living all around us! On this short trip, get a closer look at some unbelievable animals and learn how to observe and protect bugs in your own backyard. Price per person.
